

CAN WE, SHOULD WE, WOULD THEY NOTICE?

Issues around access to digital records

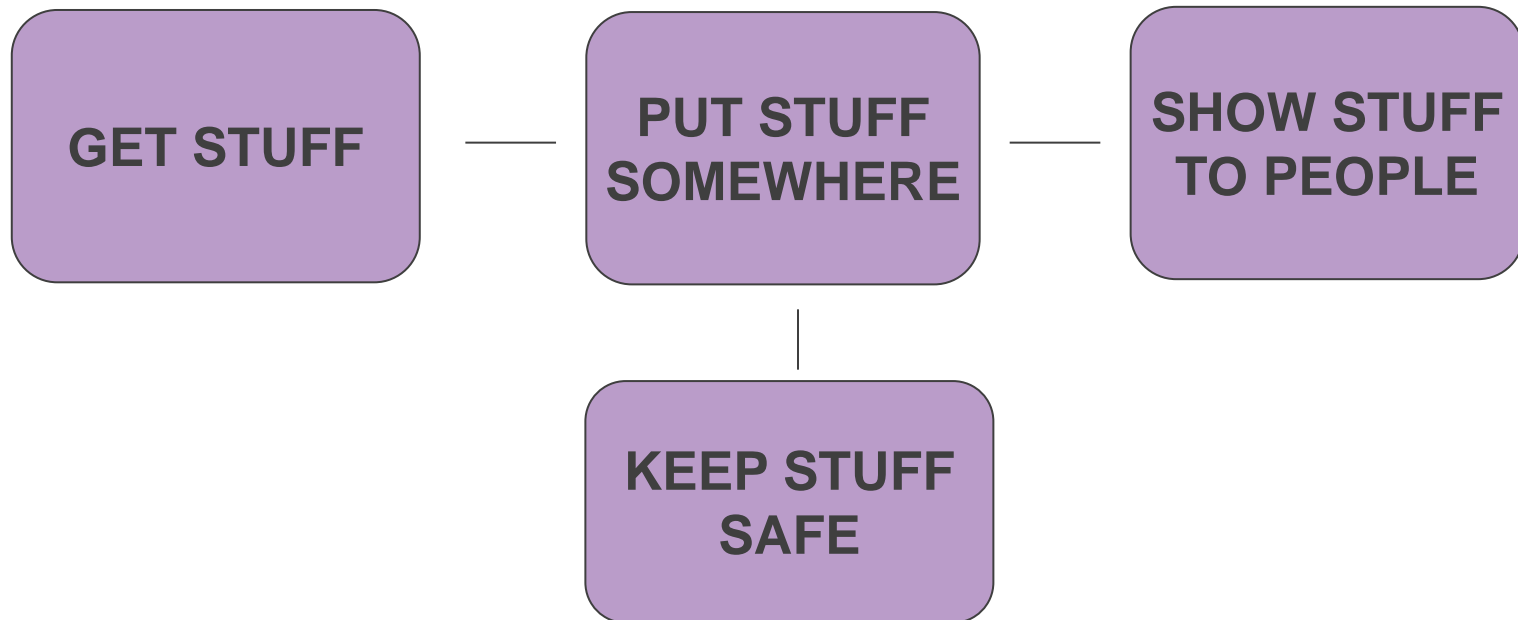

13th November 2014

Christopher Hilton, Wellcome Library

The notorious OAIS

OAIS Model – proposed revision

SHOW STUFF TO PEOPLE

PART 1: CAN WE?

What do we show, and how?

- WHO IS IT FOR? Internal v. historians
- Range of formats
- Original v. dissemination copy – functionality v. lockdown
- Emulation
- Variant versions & the “Persian interpreter” scenario
- METS – the digital teabag

SHOW STUFF TO PEOPLE

PART 2: SHOULD WE?

“This is Information Retrieval, not Information Dispersal!”

- WHO IS IT FOR? Internal v. historians?
- Fear of the digital
- Data Protection, FoI – and associated issues
- Filing systems – in theory everything is findable
- Copyright
- Expectations of record creator
- Sheer bulk and how to assess?
- Control on the way *in*
- Risk-based approach

SHOW STUFF TO PEOPLE

PART 3: WOULD THEY NOTICE?
